³ Estimated using an input/output economic modeling software, Implan (www.implan.com).

⁴ Estimated using the respective project year's annual effective income tax rate as calculated by the MT Department of Revenue.

Primary Sector Workforce Training Grants (WTG) Economic Benefits Summary Report

(Current as of November 2012)

Montana struggles with low wages and under-trained workers. The Primary Sector Business Workforce Training Act, §39-11-101, MCA, et seq., is designed to encourage the creation of jobs in primary sector businesses. The Program provides an essential job training incentive for new businesses to locate in Montana and provides existing businesses with essential support to train employees in new jobs that allow the businesses to expand in Montana without leaving the State.
